Our children are in danger

Unless we act now it is an open up clear cutting devastation

Can the government take your children away?

Absolutely they can forcibly remove your children from your home and place them in dangerous foster care for any reason, while they work to permanently terminate your parental rights. Think that it couldn't happen to you?

Child Protective Services Hurting Families and Children

Vigilance and responsibility are the only safeguards of our families, of our liberties. Never have these duties been more urgent for us as citizens than today, with child-stealing agendas running rampant. The artillery that scares them most is not parents' fury, but our simple confidence and faith. Not lawsuits alone, but most of all, an informed citizenry. Not lone advocates groups, but ordinary parents and patriots - working together. And most of all, they fear the truth. So tell it. We must tell it. We must find a worthy ear to share with. We must tell it straight. This is worth the cost. End the cover-up, and the secrecy. Hear the children's cry. Lets speak out for the children-let stop the inhumane cruelty.

Protecting Canadian Children OPPOSES

1. The placing of the coercive power of government into the FAMILY.
2. We oppose false allegations, malicious prosecution, anonymous reporters, and the denial of Civil Rights and Miranda Rights to the accused.
3. We oppose the denial of Civil Rights to children, and government presumption that they know what is "In the best interest of the child", and anything government does to children is unquestionable.
4. We oppose protection and impunity of CCAS/CAS Social Workers, law enforcement officers, lawyers, and judges from being held accountable for deliberate wrongdoing and corruption.
5. We oppose false allegations against fathers or mothers
6. We are apposing to any type of abuse and neglect of adults with developmental disabilities (top priority in Canada).

Protecting Canadian Children Support

Committed, compassionate, caring, and highly skilled and experienced staff, and we thanks all the efforts provided by any individual that provide safe, and caring homes, and place the highest priority on ensuring the various individual needs of the children being met, until a return home. We all know it's a tough job, but very rewarding.

Changing the past is impossible, changing the future is not

In year 2006, **83** children died
In year 2007, **90** children died
In year 2008, **105** children died
In year 2009, **120** children died
In year 2010, **109** children died **Total: 507 children died**
We need to remove this curse, and our country, will become the country We once had.

The timing is critical, and it is up to all of us to rescue the children of our own country. In this election let put the children, seniors, disabled, Veterans, your Country, and Justice first. And let pray that our new Premier will be crown with wisdom, honour, love, common sense, ethic and principles.
No man/women who is corrupt, no man/women who condones corruption in others, can possibly do his/her duty by the population.

There is nothing that can't be done if we raise our voice as one. United, yes we can!
