# DID YOU KNOW

The **Children's Aid Society** of Ontario is Privately Owned and Operated and is **NOT A GOVERNMENT ORGANIZATION.**

They are a government funded agency that receives \$1.4 billion a year of tax payers money.

Child Protection Workers of the Children's Aid Societies practice social work on a daily basis in direct violation of the Social Work Act of Ontario(1998). In order to practice social work in Ontario they **MUST** be registered with the Ontario College of Social workers and Social Service Workers. By changing their title to Child Protection Worker yet practicing social work they violate the law.

Andre Marin, the Ombudsman of Ontario wants Oversight of the Children's Aid Society. The Bill for Ombudsman Oversight has been introduced a number of times and consistently voted down by the Liberal party.

We are looking for Oversight .

Oversight would include the entire MUSH sector. The MUSH sector includes Municipalities, Universities, School Boards, Hospitals, Long Term Care Homes, Police Services and Children's Aid Societies.
